

Troop 81

50 Mile Canoe Trip 2018

Trip List Packet

What: 50 Mile, 5 day Canoe Trip for Troop 81
When: June 24 – 29, 2018
Where: Grimes Canoe base, near Linden, TN
Cost: \$175

PRECAMP MEETING: A mandatory meeting for all scouts attending the Canoe Trip and their parents will be held on **Monday, June 18, at 7:15 PM at First United Methodist Church**. If you are unable to attend this meeting, contact the scoutmaster as soon as possible for important information.

SUMMER CAMP DATE: Troop 81 will Canoe down the Buffalo River using BSA Grimes Canoe Base as our base camp from Sunday, June 24 through Friday, June 29 2018.

WHERE: Our base camp will be the Grimes Canoe base Scout camp which is part of the Middle Tennessee Council and located South West of Nashville, near Linden, TN.

TRANSPORTATION to Grimes Canoe Base: We will travel as a group from the church on Sunday June 24 and returning June 29. **Meet at the Church at 7:30m on Sunday June 24 wearing your Class B uniform.** We will depart the Church at 8am. Eat Breakfast before you arrive and also pack a sack lunch to eat during the drive to the Canoe Base. Travel time from Maryville is 4 ½ hours. We will be allowing 6 hours to include lunch and restroom stops.

TRANSPORTATION – Shuttle Service at Camp

The Scout camp will provide the shuttle service for transporting the troop, gear and canoes up river on Monday morning. They will pick us up down-river on Friday at the completion of the trip. We will camp as a troop in our own tents all week, including Sunday, Wednesday and Thursday nights at the Grimes Canoe Base Scout Camp. The other nights will be at pre-designated locations on the river coordinated by the Scout Camp which are used during the summer by groups taking this trip.

FOOD: The cost of the trip includes food while on the river. Please inform the leaders of any food allergies so that the menu can be adjusted.

SUN PROTECTION: We will be outdoors for the entire week. Please bring plenty of sunscreen. SPF 50 is minimum. Even with a “water resistant”, sunscreen we will need to reapply during the day. While seated in the boat, the front of the legs / thighs are very prone to sunburn and therefore everyone needs to watch out for each other and make sure we have an enjoyable trip without sunburns.

A hat is also recommended. Wide brimmed with help protect ears and back of neck as an additional barrier to the sunscreen.

FOOT GEAR: Two pairs of shoes are needed. Bring one pair of closed toed shoes which you plan to get wet. Closed toed sandals, water shoes or tennis shoes are okay but need to stay securely on your feet. (Don't bring Crocs as water shoes) Bring another pair of shoes to use on dry land. You must keep shoes on at all times unless in your tent, or hammock to protect your feet.

CANOES: The Troop has a Canoe trailer capable of carrying 6 canoes. Please tell Mr. Hendrich if you have a canoe which you would like to use on this trip down the Buffalo River. We will coordinate the transportation of the canoes. We are also able to rent extra canoes with paddles & PDFs from the camp as needed. Therefore, it saves money to take our own canoes.

Each canoe needs at least on long rope tied to the front to be used when parked along the river bank.

PERSONAL FLOTATION DEVICE (PFD): Scouts and Adults will need to wear their PDFs at all times while in the canoe or in the water. Swimming in the river will only be allowed under adult supervision and while wearing PFDs at a few select times during the trip to cool off.

GEAR: A small backpack will be useful in the canoe to keep items handy for each day on the trip. A larger duffel bag should be used to store the majority of your gear, as it will fit into the canoe nicely. The last day of the trip on the water (Thursday) , we will only need our day pack on the water. We will leave camp setup from the previous night at Grimes Canoe Base.

Waterproofing: Use layers of plastic bags and zip lock bags to keep gear dry.

Use a large trash bag inside of your duffel bag to keep out the water. Twist the bag shut at the top and bring some Para cord to tie it tight.

Inside of the garbage bag, you should use zip lock bags to keep items dry. The 2.5 Gallon size works well for storing clothes. If you double bag important items, it is much less likely to have your gear get wet if the canoe takes on water.

All gear must fit in a canoe and be reasonable to load/unload and carry.

Shelter: Your son will want to take a tent to the canoe trip. A smaller tent is recommended, so it will fit inside of a duffel bag. Some of the Scouts may choose to use hammocks to sleep in. If so, be sure to have a rain fly with tent stakes so that he will stay dry while sleeping.

SCHEDULE FOR THE WEEK:

Sunday June 24 - Depart from FUMC parking lot (8 am).

Sunday afternoon - Arrival camp at Grimes Canoe Base. Setup camp for overnight stay and prepare canoes.

Monday – break camp for early morning depart early to put in. 13 miles on water- camp at permissible destination

Tuesday morning break camp. 18 miles on water - camp at camp owned river lot

Wednesday morning - break camp. 7 miles on water arrive at Grimes. Short float good day for swimming and cleaning up litter (service project required for 50 miler BSA award). Unpack canoes and setup camp at Grimes for 2 nights.

Thursday morning launch canoes at Grimes. Take day pack with supplies for day. 12 mile float to pick up point. 50 miles completed. Camp at Grimes Thursday night.

Friday morning - pack-up gear & depart for home. Arrive in Maryville (FUMC parking lot) by 6pm on Friday June 29.

EMERGENCY CONTACT INFORMATION

If you need to get in touch with the Troop 81 Canoe trip, Your son can be reached in an EMERGENCY by calling (865) 919-2929. This is the cell phone number for Chris Hendrich. Please leave a message. At the minimum, we will check for messages each night when we are camping and back on dry land. Other leader's number will be provided at the pre-camp meeting.

The Camp Ranger phone number is 931-589-5150 . We are expecting pretty good cell phone coverage along the river, but ability to charge phones will be very limited.
